WINES

Our Mission

Hyacinth Wines' mission is to create quality wines that are approachable, affordable, and authentic. The wines are crafted with passion and precision, ensuring that each bottle highlights the unique coastal and mountain microclimates of South Africa.

The wines are always made with a light touch. None is ever obviously influenced by oak. We love wines which are more modern in style and allow the quality of the grape to shine through in your glass.

What we stand for:

- Over-delivering on quality:price ratio
- Approachable & elegant wines
- nothing “heavy-handed”
- Drinkable & enjoyable
- Sustainable at every step
- Honest & Authentic
